Press-release, Odessa, October, 2011

International Black Sea Transport – the place for effective meeting of participants of transport market.

In Odessa in October 19th-21st, 2011 **International Black Sea Transport Forum** opened its doors and presented following events: XIII International exhibition on transport and logistics «**TransUkraine 2011**», and also some specialized exhibitions: «**Commercial and municipal transport 2011**», «**TransRail Ukraine 2011**», «**Warehouse technologies 2011**» and the conference on transport and logistics “**Transit potential of Ukraine. Effective infrastructure and logistics on transport in South-East European countries**”.

The events were held under support of Ministry of infrastructure of Ukraine and were included into the plan of exhibition activity of transport-road complex and connection branch of Ukraine according to the Order of the Ministry of infrastructure of Ukraine. The event is also supported by the Organization of railways union (OSJD), the International Association of ship-owners of Black Sea, Association of Ukrainian ports “Ukrport”, International Association of dangerous cargoes and containers (Russia), Association of international forwarders of Ukraine, Ukrainian logistic Association, Black Sea Regional Association of Shiprepairers (BRASS), “UkrShipProm” Association, Danube Commission, Black and Azov sea ports Association (BASPA), International government Commission TRACECA, European union of transport workers of Ukraine, Ukrainian league of logistics and warehousing, Odessa regional government administration, Ukrainian league of logistics and warehousing.

Transport complex development is one of the most important directions of Ukrainian economy. The International Black Sea Transport Forum 2011 and all its events made a significant output into this branch development. For three days of the exhibition participants and visitors were involved into the exhibition process where there was a demonstration of technics, presentations and other events within the framework of business program. Israel company Amarillis presented their newest passport control system, which allows to save time during passport control at ships in ports, Transport-forwarding aliens East-West described their view of refrigeration container connection between Far East and Ukraine, the company OkTransVneshTerminal presented their portal to give an opportunity for companies to give information about goods and transport means to custom bodies themselves, Lengiprotrans presented their projects in the field of construction of transport infrastructure objects.

Konstantin Efimenko, First deputy minister of infrastructure of Ukraine: “...The Forum opens perspectives of transport cooperation with leading foreign companies, favors to studying the most modern transport equipment, logistic technologies and systems...”

Pavel Burlakov, First deputy chairman of Ministers council of Crimea: “The Forum and the XIII international exhibition on transport and logistics “TransUkraine 2011”, specialized exhibitions every year gather leading companies from Ukraine, Russia, Europe and CIS countries, that confirms its status of the biggest event in the region...It creates favorable conditions for successful involving of transit cargo, marine container transportations increasing...”

Nikolay Cherevkov, the Chairman of Republican committee of Autonomous republic of Crimea: “The results of the Forum will give opportunities to widen interregional and international connections, to increase effectiveness of transport potential using, straightening of trading-economical ties of countries-participants and make a step to realization of planned tasks...”

The high international status of the Forum is confirmed by wide geography of countries-participants: Russia, Poland, Germany, Israel, Lithuania, Latvia, Azerbaijan, Georgia, Byelorussia, Romania, Kazakhstan, Nigeria, Moldova, France, Ukraine.

Nowadays “MediaCompass Ukraine” started its work on preparation to the International Black Sea Transport forum 2012, which will take place in October 23-25. Within the framework of the forum there will be held the international conference “**Transit potential of Ukraine. Effective infrastructure and logistics on transport in South-East European countries**”, some round tables and seminars.

Till meeting at the International Black Sea Transport Forum in 2012.
